RESOLUTION NO. 01-15

**RESOLUTION OF
THE BOARD OF COUNTY COMMISSIONERS
OF FREDERICK COUNTY, MARYLAND**

**Re: Amendment to Water and Sewer Regulation
Connection Fees for Existing Structures**

RECITALS

In conjunction with the comprehensive analysis by O'Brien & Gere Engineers, Inc., of the County's water and sewer service costs, fee changes were adopted on January 16, 2001, by Resolution No. 01-05. At that time the Board also deemed it appropriate to allow the owners of existing structures that will connect to the County water system that will serve the Braddock Heights area, to pay the connection fee over a ten-year period, with interest. (Resolution No. 01-06.)

There are other areas in the County where existing structures will be connecting to County water or sewer systems due to health emergency or where service may be extended to areas previously served by private well or septic systems.

The Board also deems it appropriate to provide an option to the owners of existing structures, who will incur new connection/capacity charges, to pay those County connection/capacity charges over a ten **FILED** year period.
